1880 List of Pathological Specimens Referred to the Microscopical Section.

Date	Description	Contributor	Number
December 2	Typhoid thickening of Peyer's patches. The case of <u>Stevens</u> .	Apr. Surg. J. O. Skinner H. Lowell, N. T. Ex. may 12, 1880 catalogue	1539+ 1540, Med. Sec. Mic. Sect. 8306-8311
"	Portion of indurated of liver near abscess. May 12 not kept. As far advanced in decomposition its nature cannot be determined.	Dr. W. W. Johnston, Washington, D.C.	Not kept. May 12, '81
"	Portion of tumor, removed from foot of negro woman, age 40.	Dr. M. F. Lincoln, Washington, D.C. Myxo-Sarcoma	Surgical Section, May 12 no. 7050. Mic. Section 8388 to 8390
"	Spinal cord of child (A. J.) age 28 days, dead of pneumonia.	Dr. J. F. Hartigan, Washington, D.C. Section mixed by M.C.	
Dec. 7.	Portion of uterus; ^{Cancer} fibroid? Portion of new growth re- moved from peritoneum Lato's wife. Carcinoma of uterus and pelvic connective tissue - May 12.	Dr. J. T. Johnson, Washington, D.C.	Not kept May 12, 1881 Med. Sec. 8370-8372
Dec. 9.	Portions of lung, with melanotic deposits	Dr. D. S. Lamb, Washington, D.C. melanotic deposits. See Melanotic Cancer nos. 8426-7.	1542, Med. Sec.
1881 April 2	Two pieces of liver; anaemic patches.	Dr. J. F. Hartigan, Washington, D.C. Number March 12, 1881	

Date	Description	Contributor	Number
1881 April 5	Portion of hepatic zed lung.	Dr. D. S. Lamb, Washington, D.C.	
"	Portion of liver, spleen and kidney; amyloid (?)	see liver 8466 - villous staining spleen 8459 - 6 amyloid kidney 8462 - 5 "	Kidneys, 1569. Med. Sect.
May 9	Dysmenorrhoea mem brane?	Dr. M. Parsons March 19/83. Blood clot Washington, D.C.	
" 12	Portion of right kidney; metastatic focus.	Dr. G. S. Palmer Washington D.C. June 25 1883 - a. Juncus lymphoid elements.	1563 Med. Sect.
" "	Portion of bladder ulceration.	" " See Micro. Series 8429-30.	1564 Med. Sect.
" " v	Portion of cerebellum and pons Varolii; softening.	Actg. Asst. Surg. Nothing abnormal. A. S. Comfort W. Garland, Col. See Micro. Series 8470-11.	
" 13 Micro	Portion of stomach, gastritis verrucosa.	Dr. D. S. Lamb Cerebr. mucosa polyp, Nov. 9. 82 Washington, D.C.	1549 Med. Sect.
" "	Portion of oesophagus, glandular cysts.	" " See Micro. Series 8441-4.	"

Date	Description	Contributor	Number
1881 May 13	Portion of stomach; cancer.	Dr. J. W. Van Arman, Washington, D.C. Med. Sect. <i>See Micros. Yach. 8454-5.</i>	1553
"	Portion of omentum; cancer.	" <i>See Micros. Yach. 8451-3.</i>	"
"	Portion of lumbar glands; cancer.	"	"
"	Portion of cancerous mass of retroperi- toneal glands.	Dr. J. L. Cook Washington, D.C. Med. Sect. <i>See Micros. Yach. 8445-8.</i> <i>epithelioma. Nov. 9. 82.</i>	1558
"	Portion of spleen cherry masses,	Dr. D. S. Lamb, <i>See Micros. Yach. 8402-9.</i> Washington, D.C. Med. Sect.	1570
June 3	Portion of liver; cancer.	Dr. M. Parsons Washington D.C.	1587 <i>Mid. Yach. 8414-8418.</i>
	Portion of stomach; cancer.	"	1586 <i>Mid. Yach. 8419-8421.</i>
	Portion of ovary; cancer?	"	588 <i>Mid. Sect. 8422. fibrous</i>
	<i>cancer</i> Nodule from Douglas' cul-de-sac.	"	<i>Mid. Yach. 8410 to 8413</i>
" 28	Polyoid tumor of stomach	Dr. D. S. Lamb, <i>Yach. on May 13. 1881.</i> Washington, D.C. Med. Section	1549

Date	Description	Contributor	Number
1881 October 11	Portion of kidney, cyto-sarcoma?	Dr. L. L. Magruder, Washington, D.C.	1578
" 18	Portion of same showing kidney tumor	No permanent reaction for microscopical " Mch 22/83	
Nov. 4.	Portion of new growth in dura mater,	Dr. J. F. Hartigan Feb 11 tumor June 25/83. Washington, D.C. 8781-3.	
" 7	Tumor from germ removed July 20, 1881. white umbilical, tumor very vascular.	Dr. Thurn Elert Washington, D.C. Not found Mch 22/83	
" "	Portion of tumor, ^{apex} large, below the cancer of stomach.	Barnes, hepatic, Feb. 16, 1883. Scintilla cancer. Washington, D.C.	1590
" "	Portion of thick- ened Peyser's patches Case of Mary Brown, Autopsy no. 1306	Dr. D. S. Lamb Washington, D.C.	1591 to 1593
Dec. 21	Portion of biceps, girl of 8 yrs. Trichiniasis	Dr. Fred. Pettersen, Trichina abundant, Mch 22/83 Compton, Texas.	
1882 January 5	Portion of tumor of oesophagus.	Dr. D. S. Lamb myoma - Mch 14, 1883 Washington, D.C.	1598
	Portion of liver, apparently normal.	incipient amyloid degeneration of vessels. Same date	
	Portion of spleen with foci.	enlarged Macpherson bodies & incipient amyloid degeneration of vessels. same date	1599

Date	Description	Contributor	Number
1882 January 5	Portion of left kidney, Bright's disease. Portion of womb, myoma. X	<i>Heterotopiae nephrologicae & uropoieticae quoniam de generatibus of vesicae seminalis.</i> <i>myoma</i> " <i>seminalis.</i>	
1882 Jan'y. 14.	Portion of growth in male urin- ary bladder Case of M. B.	Dr. J. F. Hartigan, Washington, D.C. Received Dec. 17, 1881. <i>cancer.</i> Feb. 21, 1883.	1583 + 4.
" "	Portion of tumor of duodenum. Case of Mrs. F. C.	Dr. D. J. Murphy, Washington, D.C. Received Sep. 28, 1881.	<i>Tumor chiefly adenoma with myomatous excrescences.</i> Feb. 15, 1883. Micro. nos. 5525 - 5527.
" "	Portion of mass, from body of chicken	Mr. John Hanton, Surgeon General's Office <i>No structure made out, nothing like granular mass.</i>	Cat. no. 1589 Feb. 15, 1883
" 16	Tumor removed from hand of Robert Scott.	Dr. W. S. Lamb, Washington, D.C. <i>epithelioma</i>	
" 17	Mole from uterus. Case of Mrs. K.	Dr. John Walter, Washington, D.C. <i>myoma - spindle cell</i>	1596 Nov. 8, 1882
" 24	Portion of ileum just above valve; portion of mesen- teric glands.	Dr. E. C. Morgan, Washington, D.C. <i>both enlarged.</i> July 31, 1883	1617

Date	Description	Contributor	Number
1882 February 2	Portion of liver; cancer. Portion of kidney; Bright's disease.	Hoy. J. R. Sebin, Washington, D.C. racks porcine hyaline nephritis	1600 Med. Sec.
February 17	Left semilunar ganglion.	D.S. Lamb Dr. M. Parsons, Washington D.C. base of Green, autopsy 313	See Med. Sec. 1602-3.
March 8	Portion of right breast; and also a portion of growth near place of removal of left breast.	Dr. T. A. Ashford, Washington, D.C. base of Chaplin, * adenoma Apr. 14. 82 + carcinoma " "	Surg. Sec. 7269
March 29	Portion of integu- ment right hand, with secondary growth. base of Robt. Scott. From Dr. R. M. Bancroft, Philadelphia Pa.	Dr. R. M. Bancroft, Philadelphia, Pa. See Jan. 16. 1882. epithelioma June 5	
March 16	Portions of cyst of ovary.	Dr. R. C. Powell, Alexandria, Va. impaired June 5	
March 29 ✓	Portions of liver, cirrhosis(?).	Dr. D. S. Lamb, Washington D.C. intestine tissue in cancer; cirrhosis. Nov. 8. 82	

Date	Description	Contributor	Number
April 7 ¹⁸⁸²	Portion of mamma, removed by Dr. P. J. Murphy March 26, 1882	Dr. P. J. Murphy, Columbia hospit. adenoma June 3	Surg. Sec. 7273
"	Portions of tumor of ovary. (base of Palmer).	" " " cystic cancer - adenoma June 5. 1499	1608
"	Fluid from cyst of ovary removed April 6, 1882. Case of Eliza Carter.	" " " [An Mc. states that this consists of pus. April 8, 1882]	Surg. Section no. 7274 & 5
April 10	Portion of dermoid cyst. base of Carter	" " " Apr. 14, 82 - connective tissue supporting surface	" "
May 15 ^{Memo letter from}	Portion of breast, Mrs. Burger age 66 scirrhous	Dr. W. L. Lincoln Washington D.C. Nov. 9, 82.	Surg. Sect. 7279.
June 21	Small tubercular tumor of left mammary region, 2nd. recurrent. Mrs. A. E. Chaplin.	Dr. T. A. Ashford, Washington D.C. See 7269 Surg. Sec. See Mrs. Nelson 7220-7222	See 7269 Surg. Sec.
" 27	Portion of tumor of neck, base of Crawford. Also portion of diptheria membrane from larynx. Same case.	Dr. W. L. Lincoln sarcoma June 23/83 from autopsy at Med. Sec.	1625

1882

Date	Description	Contributor	Number
July 19.	2 portions mesenteric glands 2 " liver ^{liver} infection portion of left kidney several portions of small intestine Portion of pancreas Portion of spleen	Dr. L. E. Hagner, normal Washington, D.C. considerable degeneration base of Dr. Corbit intense abdominal inflam. normal. cysts with cheesy contents, focus of inflammation.	1629 1630
August 19	Portion of cyst of left ovary. base of portion of kidney Portion of Dr. Corbit	Dr. J. T. Baker of Hensen Washington D.C. 8604-6.	
" 23	Portion of kidney Brecht's disease. Portions of small intestine; tumor for ulcers, etc.	Dr. D. S. Lamb chronic interstitial nephritis Washington D.C. June 25/83 8596-8603.	1635 1632 + 1633
" 26 mem ✓	Portion of amyloid liver Ditto amyloid spleen Ditto kidney (left) Portion of ovary	amyloid Nov. 9, 82 Dr. D. S. Lamb. amyloid - Nov. 9, 82 Washington D.C. specimen shows centronia collar degeneration of struma	1636 1637 Nov. 9, 82, Nov. 8, 82
Sept. 8	Portion of aorta: chronic aortitis. Candy O'Connor. Rec'd Sep. 6, 1882	Apr. Thos. J. B. Erwin H. Erwin, A. Y. arteriosclerosis, May 9, 1883. see 8639, 8641 micros. Gross.

Dr. Reed - Apr. 3-95.

liver - area of small lymphoid cells; some
 for cells abundant in distended capillaries
 spleen - lymphoid structure much in-
 creased.

10822.

1895
March
5

Portions of heart,
 fibrous change;
 liver - cirrhosis
 kidney - "
 spleen - congested
 pancreas - chronic
 inflammation.

Dr. W. H. Woodward

Heart. Extensive connective tissue increase;
 abundant brown pigment in fibres.

Kidney - some connective tissue increase

Spleen - Hem.

Pancreas. Chronic interstitial increase.

7

Portion of uterus +
 tubes

Dr. Reed - March 95.

Dr. J. J. Glue

mucous membrane
 of uterus gone. Vol-
 uterine tubes normal

Washington, D.C.

3212 h.h.

Portion of kidney
 tumor

Dr. Reed - March 13-95. Primary carcinoma
 mass of kidney springing from tubal
 epithelium; the portion of kidney not car-
 cinoma shows increase of connective tis-
 sue; obliteration of many Malpighian
 bodies; fatty degeneration of secreting cells.
 Remaining kidney structure still to be
 made out in tumor

Dr. W. H. Woodward

Kidney normal. Muscular coat of pyramids much
 hypertrophied.

Washington D.C.

3314 h.h.

8

Portion of lung +
 gland. Liver + kidney
 New growths.

lung - edema, increase of connective tissue
 + later enlarged.

Dr. A. S. Lamb

3305 & 3308

Washington D.C.

h.h.

carcinoma infarcted.

Dr. Reed - Apr. 3-95

9

Infarcted
 Portion of kidney.
 Tumor - uterus

Dr. Reed - Apr. 1-95. Kidney normal.

uterus myofibroid.

Dr. T. E. McAule

Kidney - chronic interstitial change; diffuse amyloid de- generation of smaller vessels + local areas of hemorrhage in which are detected little pitted with blood.} Dr. H. S. Lamb Washington, D.C.	See 3467 h.h.
30	Secteria granular lung - worn end.	^{Dec. 14-95. Dr. Reed. Oesophagus - myxo-sarcoma chondromatous character apparent; myxoma of fibrous structure.} Dr. S. R. L. Holt Washington, D.C.	No specimen See 10917

1895	Specimen	Contributor	Remarks
December 3	Thymus	Medullary carcinoma Dr. J. H. McBurnick Washington, D.C.	Mch. 9-96. 10905.
1896	Kidney.	Jan. 25-1896 Dr. Reed epithelium of choroid, cloudy swelling of tubes with granules. Dr. J. R. Wellington No specimen albuminous material filling the lumen of many tubes; coarse granular material is seen of James Bowman's capsule & the granular of epithelium. Kidneys enlarged. (Harrison.)	10990.
14	Kidney - Bright's?	Dr. Reed - chronic diffuse nephritis - Dr. W. H. Forwood, Barnes Hosp.	Mch. 4-96. See 3468 p. 1.
20	Eyes - of child. Left eye - large optic nerve which was covered with vessels.	Dr. J. S. Adams, Washington, D.C.	
February 13	Liver - cirrhosis Kidney - atrophy Spleen - hypertrophy	W. H. Forwood ✓ Prof. Chas. Ben Barnes Hosp.	
"	Mediastinal tumor	Dr. Reed - May 19-96. Large round cell sarcoma. Dr. L. N. Ackers Washington, D.C.	10994
17	Liver. Dog. Spots.	Dr. H. L. E. Johnson, Washington, D.C.	Dr. Reed says - they were ne- crotic areas.
"	Tumor.	Mch. 4-96. - Dr. Reed Dr. P. J. Corner, Lancaster, Pa.	Small spindle cell sarcoma. 11002.
"	Kidney.	May 9. 1896 - Dr. Reed - chronic diffuse nephritis, glomeruli Dr. J. W. Chaffell + marked interstitial change. Tenallyria, D.C.	11010 + 10111.

Date	Specimen	Contributor	Remarks
February 27	Lung; broncho- pneumonia?	Children's Hospital, Washington, D.C.	Dr. Reed says - the usual appearance in bronchopneumonia. No specimen.
March 5	Placenta?	Mr. W. P. Scudder Washington, D.C.	Organized structure, somewhat recent. Placental tissue, but being dead, its stain and it cannot be positively identified. Mch 12-96. Dr. Carroll.
19	Kidney. Normal Case of cancer	Apr. 8-96. Dr. Reed. Cytoelectric lesion in kidney; some H. H. S. L. cancer. No specimen. Lesions contained epithelial cores. Washington D.C. Epithelium showed general p. n. death.	No specimen.
"	Kidney, congested Spleen, Lung. oedema Tumor of arm	Congested, a few tubules filled with blood clotting & debris + granular degeneration of epithelium + a few casts + hyaline congested oedema beginning extensive pneumonia a few abscesses in stage of red hepatization	No specimen 3487 + 3488 h.k.
20	Aorta - fatty Kidney - fatty	Apr. 14-96. Dr. Reed. Extensive infiltra- tion of coats with blood, a portion of which is undergoing infarction. Chronic diffused nephritis; slight amyloid change.	1008 f
28	Lung; inflamma- Kidney - ?	Congested + oedematous; some abscess filled with fibrin in many sections. A few examples, seemed to be early stage, normal of pneumonia before consolidation. Dr. Reed - May 4-96.	No specimen.
April 7	Kidney: infarction	Infarction + general congestion. Nov. 3. W. H. Brown, Dep. Surg. Gen. App Kansas hospital	3482 h.k.
May 14	Ventral heart	Oct. 15, 96. Section Dr. B. R. L. Cole Washington D.C.	Dr. Reed. examined. No specimen

1896	Specimen	Contributor	Remarks
May 20	Heart? Kidney - inflam " infarction infarction.	Brown atrophy. Dr. D. S. Lamb chronic diffuse nephritis. Washington D.C.	No specimens. Dr. Carroll 9-24-96.
June 11	Portion of uterus, Ovary(?)	Oct 18. 96. Shows only an ill defined Dr. J. W. Boock Washington D.C.	Fibrous striae cells, Dr. Reed. 3496 p.p.
20	Kidney. Cerebellum	Oct 18. 96. No satisfactory lesion can be made out. The epithelial Dr. L. S. Adams, Vermont Hosp. Washington D.C.	No specimens cells stained, exam- ined from first mucous clumps.
26	Testicle.	Mucoid degeneration. Nov 3-96. Dr. W. W. Wood Barnes Hosp. D.C.	
July 6	Kidney tumor. Probably malignant	Carcinoma super renal capsule. Dr. J. L. Lins Washington D.C.	Nov. 3. 96 11183
August 8	Portions of uterus cancer?	carcinoma - Nov 3-96. Dr. T. C. Smith Washington D.C.	3523 - 5. p.p.
10	Portion of spleen hypertrophy.	myelogenous leukemia. General hyperplasia with the elements of chronic. Tissue crowded with large lymphoid cells, some of which are multi- nucleated. Only a few myeloid cells. Dec. 1. 96. Carroll Dr. B. B. Adams Washington, D.C.	11128
11	Portions of pancreas splenic kidney. Diabetes, intestinal ulcer	Dr. Carroll - Aug. 26. 1896. Spleen - chronic passive hyperplasia with thickened capsule and hyperplasia. Pancreas - nodular atrophy. Kidney - acute congestion. Intestinal ulcer. Shows severe Dr. H. H. Barker Washington, D.C., diplophasic inflammation. The ulceration extends to the muscular coat; the inflammation to the subserous tissue. Tissue well preserved.	11129
